

IVR validation VOICE RESPONSE SYSTEM FOR LNP/FN

For the fixed number portability process (LNP / FNP) we provide in a Voice Response System (IVR).

The customer calls to an IVR using the to be ported number, the CLI is recognized and added to the PortingXS database. For further authorization purposes an optional 4 digit ID number can be implemented as well. If the number in the database is matched with a number in a request, the request for porting is sent to the donor operator.
